NodeJS back-end developer

I love IT technologies

I want to become a better fullstack

I love new challenges

I am responsible and always open to help

Education

- Since October 2013 • Graduated IT Engineer
University Metropolitan Serbia - Belgrade
- From September 2009 to May 2013 • Mechanical Technician for Reparation
Technical School "Kolubara" Serbia - Lazarevac

Work experience

- From January 2017 to February 2018 • ICT system administrator
University Metropolitan Serbia - Belgrade
I worked as an assistant administrator at University Metropolitan
- Since January 2014 • Front-End and Back-End developer
No company Serbia - Belgrade
I have many projects that I worked as a freelancer, which include work on MonogDB and MySQL databases, as well as work on Front-End (HTML5, CSS3, Bootstrap 4, Angular 2-10) and Back-End (NodeJS)

Skills

NodeJS

I used ExpressJS, mongoose, passport and many more libraries and micro frameworks that come with NodeJS or are specifically included

Angular 2-10

I have used Angular in several client projects. It is not an advanced use, but enough to meet the needs of an online store. As an example, connecting to the API, blocking certain application routes, etc.

MySQL

I have used MySQL in several client projects. It is a medium knowledge that is enough to create a CRUD application, as well as more complex queries necessary for the operation of the Online Store

MongoDB

I have used MongoDB in several client projects. It is NOT an advanced use, but enough to meet the needs of an online library.

Power Designer

I used it mostly to model MySQL databases as well as some business processes

Languages

Serbian

English

Computer skills

Microsoft Office 365

I used Word and PowerPoint to demonstrate and document everything related to the projects I worked on

Linux

I use Linux since 2008 and support open source

Interests

IT technologies

I like to follow the development of certain IT technologies

Linux

I like to follow the development of certain linux distributions

Photography

Photography is my hobby
